REISSUE LITIGATION  
REISSUE PATENT APPLICATION  
Docket. No. 4164-133

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re application of: John F. ACRES et al.

Original Patent No.: 5,655,961

Original Patent Issue Date: August 12, 1997

Box 7  
Assistant Commissioner for Patents  
Washington, D.C. 20231

**REISSUE APPLICATION DECLARATION BY THE INVENTOR**

As below named inventor, I hereby declare that:

My residence, post office address and citizenship are stated below next to my name. I believe I am the original, first and sole inventor (if only one name listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number 5,655,961, granted August 12, 1997, and for which a reissue patent is sought on the invention entitled METHOD FOR OPERATING NETWORKED GAMING DEVICES, the specification of which

is attached hereto.

was filed on \_\_\_\_\_ as reissue application number \_\_\_\_\_ / \_\_\_\_\_  
and was amended on \_\_\_\_\_.  
(If applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (check all boxes that apply).

by reason of a defective specification or drawing.

by reason of the patentee claiming more or less than he had the right to claim in the patent.

by reason of errors.

At least one error upon which reissue is based is described as follows:

The original patent application as filed did not include a full range or scope of independent apparatus claims to which the patentee is entitled. Independent claims 1, 21, and 28 refer to "reconfiguring" the gaming device, and independent claim 55 refers to activating a bonus payout table in a gaming device. These limitations are not believed to be necessary to patentability of the invention, but nevertheless limit the claimed invention of US Patent No. 5,655,961 to a scope that is less than that to which the applicant is entitled. In addition, the original patent application as filed did not include limitations relating to transmission of a pay command in combination with a bonus payout.

All errors corrected in this reissue application arose without any deceptive intention on the part of the applicant. As a named inventor, I hereby appoint the following attorney(s) and/or agent(s) to prosecute this application and transact all business in the Patent and Trademark Office connected therewith.
